- 1 Test facility in the Geberit laboratory
- 2 Geberit WC with TurboFlush: up to 10 times better than the standard
- 3 Geberit bathroom, designed by Bjerg Arkitektur, Denmark
- 4 Production of the Geberit AquaClean Mera shower toilet
- 5 Heinrich and Klaus Gebert in the 1970s
- 6 Raw material before processing

Geberit products are the result of a perfect balance of elegant design and outstanding functionality, responsibly manufactured from high-quality materials. They are easy to clean, straightforward to use and contribute to a better quality of life.

The globally active Geberit Group is the European market leader for sanitary products and continues to set new standards in the sanitary industry.

Geberit is active in over 50 countries and manufactures sanitary products for the sustainable improvement of quality of life at 26 production sites. The company has its headquarters in Rapperswil-Jona, Switzerland, where Caspar Melchior Albert Gebert founded the company back in 1874.

Over 10,000 employees are committed to offering customers innovative, sustainable and durable quality products. Right from the start, Geberit has been characterised by its profound innovative spirit. This is firmly rooted in extensive in-house research and development initiatives. All new developments undergo a meticulous process, which means customers can be sure that new products not only fulfil their needs, but also meet the highest quality standards.

DESIGN
MEETS
FUNCTION

Pairing outstanding functionality with aesthetic design across the whole bathroom – that is what Design Meets Function means.

OUR CONTRIBUTION TO A SUSTAINABLE SANITARY INDUSTRY

“SUSTAINABILITY HAS BEEN AN INTEGRAL PART OF GEBERIT CULTURE FOR SEVERAL DECADES. OUR FOCUS IS ON CONSTANT AND CONSISTENT IMPLEMENTATION WITH MEASURABLE RESULTS.”

Christian Buhl, CEO

OUR UNWAVERING SUSTAINABILITY STRATEGY

Over 30 years have gone by since Geberit drew up its first environmental strategy and started implementing specific measures. Over time, this strategy was gradually expanded into a comprehensive sustainability strategy based on the UN Agenda 2030 and its 17 Sustainable Development Goals.

In line with the 2030 Agenda framework, Geberit takes into account economic, ecological and social aspects. The aim is to sustainably enhance the quality of life for individuals through innovative sanitary products, with the explicit objective of minimising the ecological footprint across the entire value chain. In addition to maintaining fair cooperation with its suppliers and business partners, Geberit also considers the training and development of its employees, as well as installers, planners, and architects, to be integral components of this strategy.

TOP AWARD IN THE ECOVADIS SUSTAINABILITY RATING

It's a strategy that's paying off, too, as 2023 saw Geberit receive the highest recognition from EcoVadis – the Platinum medal – for the fourth time in a row. EcoVadis is a provider of sustainability ratings and evaluates more than 100,000 companies in over 175 countries in the areas of environmental impact, labour and human rights, ethics and sustainable procurement.

The Platinum medal positions Geberit among the top one per cent of all companies assessed by EcoVadis, across all industries and countries. This award makes it clear to customers and suppliers alike that Geberit has a comprehensive, systematic, and effective sustainability management system in place.

DESIGNED FOR LONGEVITY

Geberit products have service lives that span decades because of the high-quality materials used and strict quality standards applied. Furthermore, they are usually backwards-compatible and are easy to clean, maintain and repair. Geberit offers the availability of spare parts for up to 25 years for a significant proportion of its products. What's more, it also guarantees the flush function of its concealed cisterns for 50 years. The specific functionalities of electronic products (e.g. hygiene flush unit or DuoFresh) are excluded.

CONSCIENTIOUS USE OF RESOURCES

Geberit products are continuously reviewed and improved in terms of water consumption. Plastic is used as efficiently and sparingly as possible to manufacture high-quality and durable products. Internal recycling processes allow almost 100 per cent of all processed plastics to be reused in production. And when it comes to packaging, the company primarily uses cardboard and avoids polystyrene and other plastics wherever possible.

REDUCING OUR FOOTPRINT

Geberit works hard to consistently reduce energy consumption, carbon emissions, and waste production while advocating for responsible water usage. The strategy to cut carbon emissions builds on the successes of previous years, with the goal to reduce carbon intensity (carbon emissions in proportion to currency-adjusted net sales) by five per cent annually. The company places a special focus on energy-efficient production. Some ceramic plants have even equipped their kilns with energy-saving technology in recent years. Upgrades such as these have allowed the company to achieve energy savings of over 20 per cent per facility.

ECO-DESIGN FOR ADDED VALUE

For many years now, Geberit has been committed to ensuring that every new product should be ecologically better than its predecessor in a bid to conserve natural resources.

This graphic illustrates the Ecodesign principle using the example of a typical Geberit product group: a WC system. The Geberit iCon Rimfree® WC with the flow divider made of 69 per cent recycled ABS plastic is installed on the Geberit Duofix mounting frame 111.300. In the Geberit Sigma concealed cistern 12 cm, the type 212 flush valve ensures a reduction in water consumption. The flush is actuated by the recyclable Geberit Sigma30 actuator plate, which is mounted in a frame made of 100 per cent recycled ABS plastic.

Geberit has set itself the goal of creating added value for customers, the environment and society with its resource-saving and durable products. The key to this is ecodesign. Since 2007, the company has been consistently developing its products on the basis that every product should be ecologically better than its predecessor, without compromising on quality, functionality or durability. All stages of the product life cycle are taken into consideration for this assessment, from raw material extraction to disposal.

WATER CONSUMPTION IN FOCUS

Geberit has a long tradition of manufacturing products that save water. Rimless ceramics, optimised TurboFlush technology and flush valves, not to mention water-saving taps and urinals, are all designed to help customers use water resources more sparingly. Thanks to innovative Geberit sanitary products such as dual flush or stop-and-go cisterns, the average water consumption for flushing the toilet has fallen by around 80 per cent since 1952, from 70 litres to 14 litres per person per day, according to a model calculation.

Geberit also offers resource-saving products in the washbasin area. The Geberit iCon vanity basin, for example, is made from natural raw materials and is designed to last for decades. The environmental footprint of the ceramic appliance can be clearly seen in an environmental product declaration (EPD). The space-saving washbasin drain is produced with 100 per cent green electricity, is backwards compatible and has a spare parts availability of 25 years. The tap aerator of the Geberit ONE washbasin tap saves water regardless of the pressure. The wood used for bathroom furniture such as the Geberit Option Plus mirror cabinet or the washbasin cabinet in the Geberit iCon bathroom series is FSC™-certified.*

*Commitment regarding FSC™ C134279 certified products: Geberit International AG | Schachenstrasse 77 | 8645 Jona | Switzerland

We reached out to private customers to ask what was important to them in the bathroom. Six particular features came up again and again: design, cleanliness, ease of use, space-saving solutions, comfort and accessibility. Recognising that everyone has different priorities, we offer bathroom series tailored to suit a diverse range of needs.

This allows you to create your own dream bathroom with products that epitomise functional design at its best. Our reliable technology represents the state of the art in sanitary expertise. With Geberit, you are sure to find everything you need to create your own, personal spa along with the perfect bathroom furnishings to suit your style. Get ready to enjoy a bathroom that goes above and beyond all expectations.

I EXPECT MORE FROM MY BATHROOM

DESIGN
A reduced and timeless aesthetic that can be easily combined – for those looking for modern elegance and a wide range of colours and materials.

CLEANLINESS
Clever products that remain virtually dirt-free and are easy to clean – for those who want to minimise the amount of cleaning required.

EASE OF USE
Products that are intuitive and easy to use – for those who like to be safe in the knowledge that they are enjoying optimal functionality after a bathroom renovation or conversion.

SPACE-SAVING
Clever functions and products that create space – for those who don't want to compromise on functionality or storage space.

COMFORT
Products that bring comfort and hygiene to the bathroom – for all those looking for extra freshness, well-being and cleanliness.

ACCESSIBILITY
Easily accessible, barrier-free bathrooms – for those who would like a universal design regardless of their age or specific needs.

DESIGN
I ATTACH GREAT
IMPORTANCE TO **PERFECT**
BATHROOM DESIGN

From The Design Museum in London to the Museum für Gestaltung in Zurich, inspiring visits to exhibitions are among the personal highlights of my travels. I enjoy taking inspiration and ideas from these places and channelling it into my home – even in the bathroom, having a perfectly coordinated design concept is very important to me.

Design solutions from Geberit offer a wide range of options for creating stylish bathroom concepts down to the last detail. Geberit products and solutions are no strangers to prestigious design accolades including the Red Dot Award and the iF Design Award. With a variety of shapes, materials and surface finishes to choose from, not to mention consistent perfection in workmanship, Geberit's design concepts never fail to tick all the boxes.

GEBERIT ACTUATOR PLATES

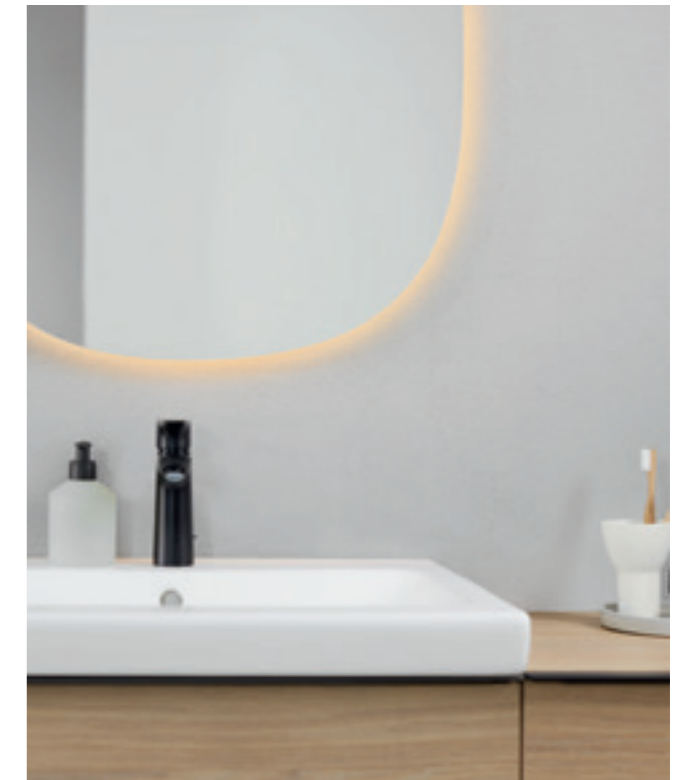

Geberit actuator plates make a bold statement in the bathroom. With their round and geometric design, premium materials and contemporary surfaces, they are sure to elevate any space.

SIGMA21

SIGMA50

GEBERIT OPTION

Round, oval or square, the Geberit Option illuminated mirror family offers a wide range of design options for the washplaces. The Option Plus mirror models are available with a matt black frame and form a harmonious ensemble with complementary fittings, bathroom furniture and flush plates in the same colour family.

↑ **GEBERIT OPTION OVAL**
More design choice with subtle, indirect lighting.

GEBERIT MIX & MATCH

Unique washplaces can be created from classic, vanity and lay-on washbasins, as well as a wide range of bathroom furniture. In combination with the extensive range of illuminated mirrors and side cabinets, the washplaces can be customised down to the last detail.

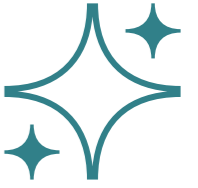

CLEANLINESS

WHAT TO DO ABOUT HAIR AND DIRT?

It's a hairy predicament: my partner and I almost come to blows every time I take a shower and my hair clogs everything up after getting trapped in the drain. Are there any solutions that will make my bathroom as easy to clean and maintain as I want it to be?

Hair in the bathroom is annoying – especially when it blocks up the shower and washbasin drains. This is why Geberit offers a variety of drain solutions to resolve this issue that are both stylish and easy to clean.

← **ONE WASHBASIN COMB INSERT**
The horizontal Geberit ONE CleanDrain washbasin drain features a comb insert and is easy to remove and clean.

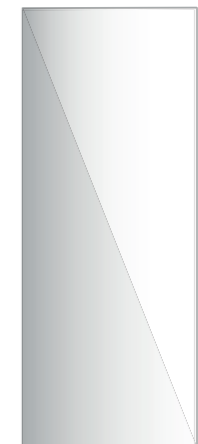

← **COMB INSERT**
A comb insert is built into many Geberit drain solutions to protect against clogging.

CLEAN SHOWER
The Geberit CleanLine shower channel and walk-in shower panel complement each other beautifully to create a perfectly easy-to-clean floor-even shower solution.

GEBERIT CLEANLINE SHOWER CHANNEL

When it comes to trapping hair, the comb insert in the Geberit CleanLine shower channel has got all bases covered. It can also be removed and cleaned in one easy step. The drainage profile of the elegant shower channel is also easy to clean: unlike other solutions, it has no concealed, hard-to-reach areas, which means less dirt can accumulate and the open outlet surface is sparkling clean after a single wipe.

WALK-IN SHOWER PANEL

The walk-in shower panel is fastened to the prewall without any visible fittings or profiles so nothing can get in the way when cleaning down the surfaces.

REQUIREMENTS

Everyone wants a spotlessly clean and well-maintained bathroom, but nobody really wants to put the effort in. This is why Geberit offers clever solutions designed not only to make cleaning and maintenance easier, but also to significantly reduce the build-up of deposits in the first place.

→
GEBERIT SIGMA80
TOUCHLESS
Black glass

TOUCHLESS FLUSH ACTUATION

The ability to actuate a flush without physical contact reduces soiling and minimises the risk of germ transmission.

WC SEAT WITH QUICK RELEASE FUNCTION

NO MORE DIRT TRAPS

Remove the lid, wipe down the surface, then reattach the lid: the removable seat and lid make it much easier all round to keep the toilet clean.

KERATECT®

SMOOTH IS SIMPLY CLEAN

Dirt and water stains barely stand a chance on the virtually non-porous, durable KeraTect® finish, keeping surfaces clean and well-maintained for longer.

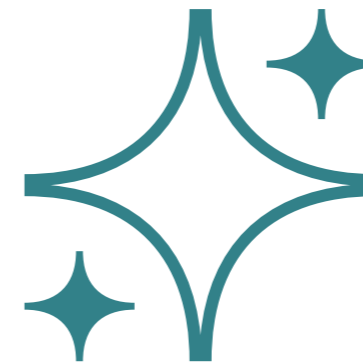

GEBERIT TURBOFLUSH

ASYMMETRICAL WATER GUIDE

Quiet, thorough and with outstanding flushing-out performance: the asymmetrical inner geometry of the innovative Geberit TurboFlush technology is based on an entirely rimless WC ceramic appliance and minimises the amount of cleaning required.

←
FLOW-OPTIMISED
The lateral water inlet in combination with the asymmetrical ceramic sets the water in a spiral motion.

RIMFREE® WCS

RIMLESS FOR AN EASIER CLEAN

The rimless Geberit Rimfree® WC ceramics set a contemporary standard for hygiene and ease of care. The flush technology with flush guide ensures complete, dynamic flushing out and reduces the cleaning effort – even on a partial flush.

EASE OF USE

MY BATHROOM UNDERSTANDS ME

I like to be able to do my morning routine in the bathroom without thinking. I value innovative functions and smart solutions that make my everyday life easier. How do I design my bathroom to be completely user-friendly?

Geberit develops innovative products and solutions that make our bathroom experience easier and more convenient. They are designed to be intuitive, to make life more straightforward, and to offer real added value.

ADAPTS TO THE TIME OF DAY
The ComfortLight of the Geberit ONE mirror cabinet adapts its brightness and light colour to the natural daylight: bright and cool in the morning, muted and warm in the evening, and a soft orientation light at night. This can be continuously variable via a sensor button or fully automatic via presets on the Geberit Home app.

INTUITIVE REMOTE CONTROL

SIMPLE OPERATION

The new remote control for Geberit shower toilets is now easier to use than ever before. The buttons feature basic symbols and can be operated intuitively. There is also now a large display on the back to provide an additional operating aid. The remote control flashes to indicate when descaling is required.

↑ **SELF-EXPLANATORY**
No operating instructions are required to use a Geberit AquaClean shower toilet.

SPACE-SAVING

WHERE DO I PUT ALL MY ESSENTIALS?

From jars, tubes and pots to make-up brushes and hairbrushes, I just love my beauty products. But where am I supposed to put all my cosmetics in the bathroom? And how do I keep my favourite products within easy reach?

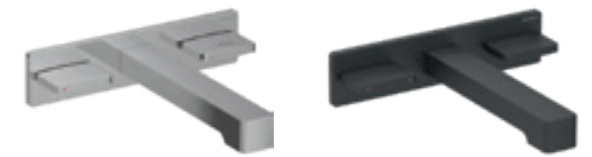

You just can't have too much space in the bathroom. But many bathrooms are not as big as we would like. Geberit offers space-saving furniture and shelf surfaces that make optimal use of the available space and make it easy to keep things tidy.

UNINTERRUPTED STORAGE SPACE

Geberit washbasin cabinets offer an impressive amount of storage space without being interrupted by a trap cut-out. The interiors can be adapted to suit personal requirements with variable organisation systems.

GEBERIT ONE WALL-MOUNTED TAP

A wall-mounted tap creates additional space around the washbasin and leaves a continuous ceramic surface that is easy to clean. Available options include a bright chrome-plated model or a contemporary matt black finish.

REQUIREMENTS

Geberit offers a wide range of innovative solutions designed to optimise the use of space in the bathroom. They create order, clarity and a tidy appearance in even the smallest of spaces.

NICHE STORAGE BOX

FREEDOM OF MOVEMENT IN THE SHOWER

The Geberit niche storage box keeps toiletries close at hand in the shower without restricting space or freedom of movement.

GEBERIT WALL DRAIN

Concealing the shower drain is the perfect way to create a floor-even shower, as this leaves the floor beneath the shower completely uninterrupted.

← INTEGRATED INTO THE PREWALL
By integrating the water outlet into the prewall, only the removable cover remains visible on the wall.

MIRROR CABINET

PLENTY OF SPACE IN THE PREWALL

The Geberit ONE mirror cabinet can be integrated into the prewall with a barely visible projection. This makes the bathroom feel more open and offers plenty of storage without compromising on space.

PHARMACY PULL-OUTS

STACKING HIGH FOR EXTRA STORAGE SPACE

Pharmacy pull-outs have been proving their worth in the kitchen for a long time, but they have now finally made their way into the bathroom. And for good reason, too: The Geberit Acanto tall cabinets with pharmacy pull-out units offer plenty of space on a minimal footprint. The pull-out mechanism means that cosmetic items are always clearly organised and easy to reach.

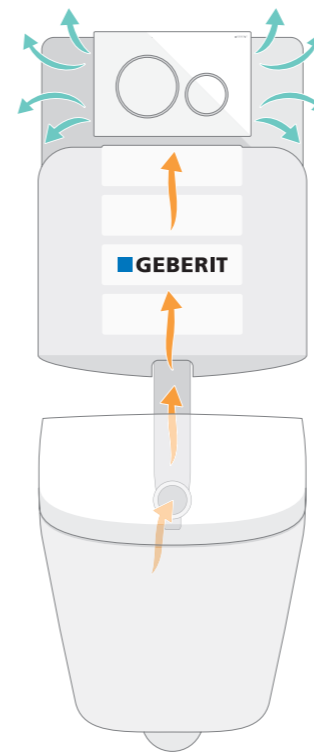

COMFORT

SOMETIMES I'M FED UP WITH MY SISTER

Every morning, my sister just manages to beat me into the bathroom. Even once she's finally finished, the unpleasant smell tends to linger and I have to hold my breath. Can't nasty odours simply disappear?

Geberit DuoFresh removes unpleasant odours before they can spread throughout the bathroom. Odour extraction units can be installed directly behind the actuator plate, and selected Geberit AquaClean shower toilets even come with one built in as a permanent comfort function.

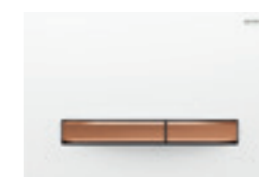

← **ACCESSIBLE**
The ceramic honeycomb filter and drawer for in-cistern blocks are readily accessible behind the actuator plate.

← **QUIET AND EFFICIENT**
The ceramic honeycomb filter cleans the air thoroughly. A quiet fan blows the cleaned air back into the room.

GEBERIT DUOFRESH ODOUR EXTRACTION UNIT

Geberit DuoFresh is a beneficial treat for all the senses. Odour extraction starts automatically as soon as someone sits down on the toilet thanks to the user detection feature. It extracts the air directly from the ceramic appliance and filters it back into the room in a purified state. The DuoFresh module can be easily installed in the Geberit Sigma concealed cistern.

Geberit DuoFresh can be ideally combined with the Geberit AquaClean Sela or Alba shower toilets. The popular AquaClean Sela designer shower toilet is now also available as an all-inclusive package with the DuoFresh module.

GEBERIT DUOFRESH DESIGN VARIETY

The DuoFresh odour extraction unit can be combined with all Geberit Sigma01 to Sigma50 mechanical actuator plates.

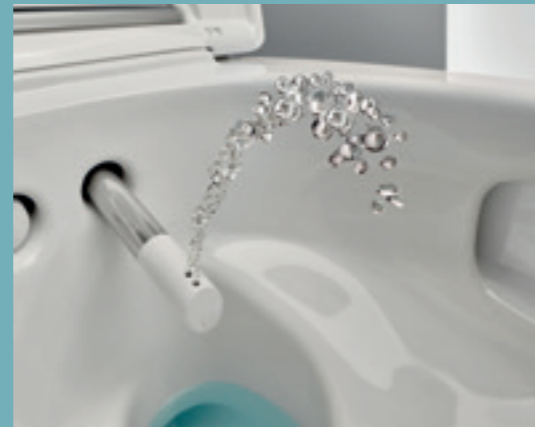

REQUIREMENTS

It's often the details that make the difference between an everyday experience and that special sense of well-being and freshness. Geberit adds an extra helping of comfort to your bathroom with its spa-style functions you will never want to do without.

WHIRLSPRAY SHOWER TECHNOLOGY

PATENT ON THOROUGH CLEANING*

The patented WhirlSpray shower technology features in every Geberit AquaClean model. It refines the shower spray through dynamic aeration and enables targeted, thorough and particularly gentle cleaning with less water consumption. For a feeling of freshness all day long.

WC SEAT RING HEATING

AUTOMATIC WARM SENSATION**

← PROXIMITY SENSOR ACTIVATION
The WC seat ring heating starts automatically thanks to the proximity sensor.

The WC seat ring heating brings the shower toilet seat to a pleasant temperature in no time. That means no more sitting down on a chilly toilet during the cold season! And for those who prefer it cooler in the warmer months, the temperature can be lowered at any time.

* Available for all Geberit AquaClean shower toilets.

** Available for Geberit AquaClean Mera Comfort and Tuma Comfort shower toilets.

ODOUR EXTRACTION UNIT

FOR FRESHNESS IN THE BATHROOM

The Geberit Monolith sanitary modules open up unexpected possibilities when it comes to bathroom design. Unpleasant odours in the WC area are now a thing of the past. The extremely quiet fan in the Geberit Monolith sanitary module ensures efficient odour extraction directly in the WC ceramic appliance.

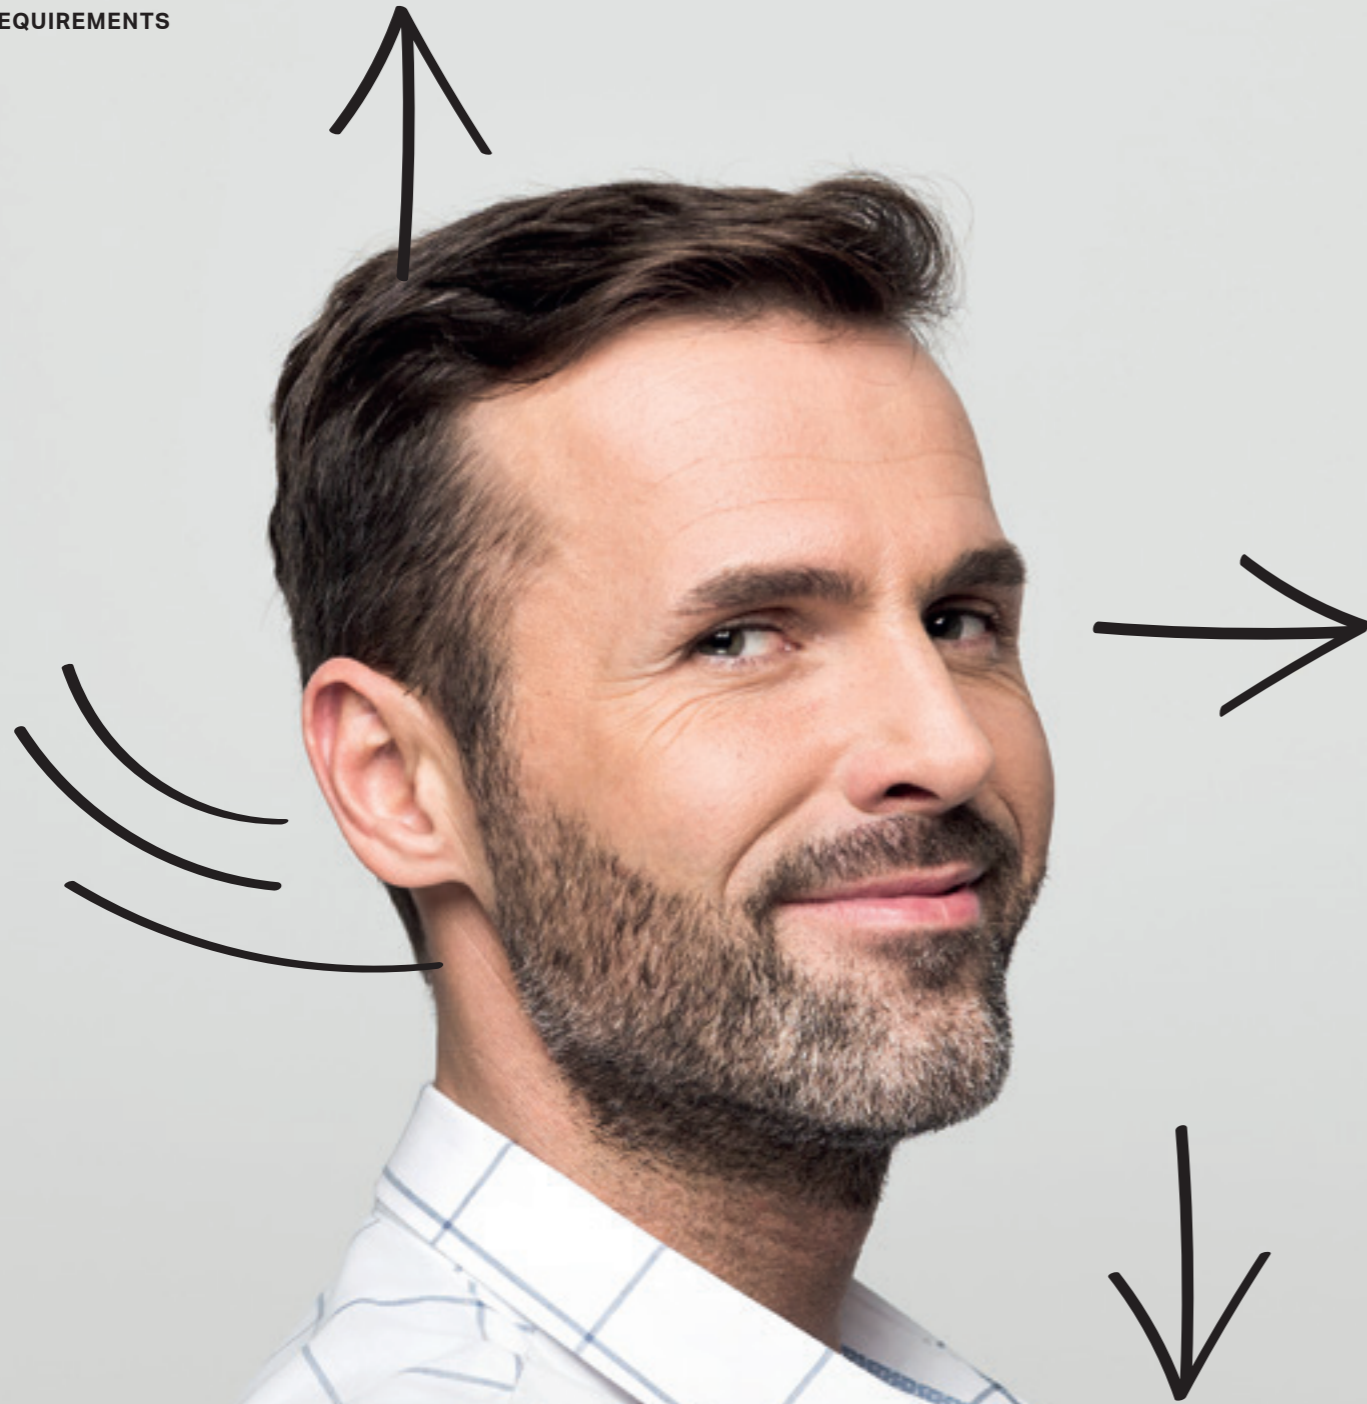

ORIENTATION

DISCREET GUIDANCE THROUGH THE NIGHT

The Geberit orientation light can be set in seven different colours. It switches on automatically when you approach the toilet and provides welcome orientation in the bathroom at night. The muted light makes it easier to fall asleep again afterwards. The orientation light is integrated into various Geberit AquaClean shower toilets, the DuoFresh odour extraction unit, and the Geberit Monolith Plus sanitary module.

ACCESSIBILITY

I WANT A BATHROOM FOR LIFE

As a recreational athlete, maintaining an active lifestyle is important to me. But what happens if my mobility starts to deteriorate? I want to design a bathroom that will continue to offer me optimal usability and accessibility no matter what the future holds.

Your new bathroom should meet your needs for the next 25 years and adapt to any changes in your life. This makes planning ahead a crucial factor. Geberit provides you with bathroom fittings in front of the wall and systems behind it that offer convenience in every situation.

FLOOR-EVEN SHOWER SOLUTIONS
Floor-even shower solutions are not only stylish, they also offer barrier-free access to the shower area. What's more, with shower surfaces such as Geberit Olona, the slip resistance is built right in. This provides a sense of convenience and security for today and tomorrow.

RETROFIT HEIGHT ADJUSTABILITY

WC SEAT HEIGHT EASY TO ADJUST

The sophisticated installation technology of the Geberit ONE WC makes it possible to flexibly adjust the height of the ceramic appliance even years after installation. And what's particularly great about this feature is that the height adjustment technology is located right there in the WC, meaning no intervention in the prewall is required. This kind of flexibility will be useful for generations to come.

YOUR BATHROOM, YOUR WAY

What features matter most to you in your bathroom? Geberit offers bathroom series that are specifically tailored with different needs in mind. The table opposite allows you to find the perfect furnishings and equipment to suit your ideas, your living situation and your budget in no time.

COMING SOON

WCs

Discover the many ways in which modern WCs can improve your everyday life. Geberit WCs offer a wealth of solutions catering to individual comfort preferences and every budget.

The Geberit WC system comprises the Geberit cistern and Geberit WC ceramic appliance to provide outstanding flush performance that is up to 10 times better than the European standard requirement.

GEBERIT WC SYSTEM 10 TIMES BETTER FLUSH PERFORMANCE

Required flush performance according to the DIN EN 997:2018 standard

Geberit WC with TurboFlush: up to 10 times better than the standard

Geberit develops WC systems that optimise the entire water circuit from the cistern to the WC and into the discharge pipe. In this way, the energy from the cistern is converted into an exceptional toilet flush. A powerful vortex achieves full-surface flushing of the rimless ceramic, offering a flushing-out performance that is particularly thorough and quiet.

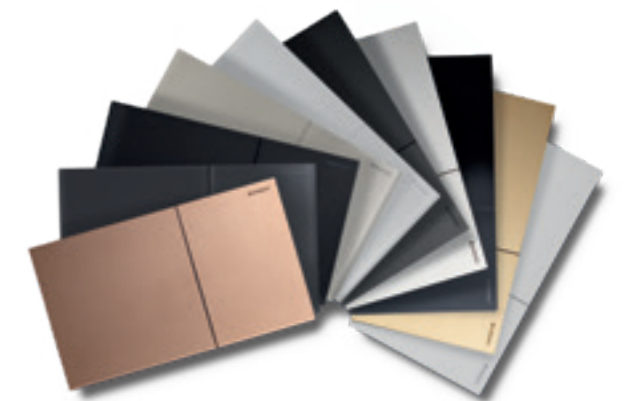

↑
Flush performance is 10 times better than required by standard testing (DIN EN 997-2018). Watch our video to experience the flushing test with balls and paper.

←
The flush- and spray-proof rimless Geberit WC ceramic appliances, the easy-to-remove seat, the virtually non-porous KeraTect® finish and the outstanding flush performance make cleaning your toilet a breeze.

→
Choose from a variety of designs, materials and colours to find the perfect actuator plate for your bathroom and style. The Geberit Sigma70 actuator plate, for example, brings its minimalist, floating look and an even greater variety of colours and materials to the product range.

GEBERIT WC SYSTEM QUALITY CONNECTS

At Geberit, we channel our comprehensive expertise into developing and testing our products. We prioritise responsible manufacturing processes every step of the way, craft our products from the highest quality and most durable materials, and deliver them only after rigorous quality inspections. This is why we offer our customers 50 years of spare parts availability for all-round peace of mind. Because Geberit is a name you can rely on.

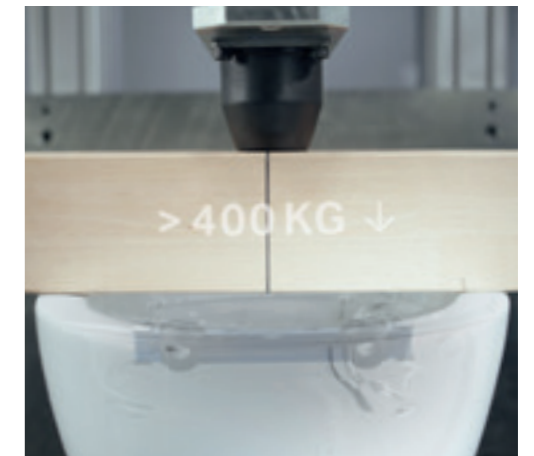

SCRUTINISED UNDER THE MICROSCOPE: RIGOROUS TESTING IN OUR OWN LABORATORIES

ADVANTAGES OF THE GEBERIT SYSTEM

SPARE PARTS AVAILABILITY FOR 50 YEARS

Geberit guarantees the flush function of its WC concealed cisterns for 50 years. The specific functionalities of electronic products (e.g. hygiene flush unit or DuoFresh) are excluded.

SHOWER TOILETS

CLEANER, FRESHER, MORE HYGIENIC.
DISCOVER THE BENEFITS OF THE UNIQUE
GEBERIT AQUACLEAN SHOWER TOILETS
WITH THEIR GENTLE SHOWER SPRAY.

↑
A shower toilet features an integrated shower spray. This offers thorough and gentle cleaning without the use of paper.

GEBERIT AQUACLEAN IN A NUTSHELL

As the gentlest and most thorough means of cleaning, water takes the spotlight in our pursuit of cleanliness. Everyday tasks illustrate just how important water is when it comes to cleaning. After all, would you really prefer to clean your dirty hands with just dry paper? Geberit AquaClean shower toilets ensure freshness and cleanliness all day long at the touch of a button, not to mention extra comfort depending on the model.

HOW DOES A SHOWER TOILET WORK?

←
The spray arm starts in its well-protected park position. It is automatically rinsed before each use to ensure it is always perfectly clean.

←
At the touch of a button, the spray arm extends and the shower procedure begins. Seconds later, a pleasant, warm jet of water can be felt. Once the shower procedure is complete, the spray arm is rinsed again and returned to its park position.

EXTRA COMFORT

In addition to a wide range of designs, Geberit AquaClean shower toilets also offer a whole host of additional comfort functions to elevate your overall well-being experience.

GEBERIT AQUACLEAN MERA COMFORT AND AQUACLEAN MERA CLASSIC FEATURES

KeraTect®

GEBERIT AQUACLEAN ALBA

Geberit AquaClean Alba is a simple, stylish toilet with spray functionality. It's the ideal entry-level shower toilet option, offering all the most important functions of a shower toilet while staying in the lower price range. Those who are thinking of buying a new WC can enjoy the benefits of an elegant and effective shower toilet for just a small extra cost compared to a conventional toilet.

Geberit AquaClean Alba

Geberit AquaClean Alba features WhirlSpray shower technology for a gentle shower experience.

HIGHLIGHTS OF THE NEW GEBERIT WC REMOTE CONTROLS

- Simple menu navigation including a large rear display
- Maintenance instructions on the front
- Magnetic wall bracket
- Ergonomic
- Backwards compatible with a wide range of Geberit shower toilets

GEBERIT AQUACLEAN REMOTE CONTROLS

Geberit AquaClean shower toilets can be controlled not only via the Geberit Home app, but also using a simple and user-friendly remote control. This intuitive device has all bases covered when it comes to assisting with various settings and applications related to the shower toilet. Maintenance instructions are clearly visible, and the handy rear display is ideal for making adjustments to the appliance settings. The remote control options differ depending on the accompanying shower toilet: the model with the rear display is compatible with Geberit AquaClean Mera, Sela and Tuma Comfort, whereas the remote control for the Geberit AquaClean Alba and Tuma Classic models is more minimalistic and does not feature a display.

↑ Without display.

↑ With rear display.

↑ A warning sign for maintenance instructions lights up on the front of the remote control when required.

RIMLESS WCS

**QUIETER, MORE THOROUGH, AND SIMPLY SPOTLESS:
DISCOVER THE BENEFITS OF THE ENTIRELY RIMLESS
GEBERIT WCS WITH TURBOFLUSH AND RIMFREE®
FLUSH TECHNOLOGY.**

RIMLESS WCS WITH TURBOFLUSH TECHNOLOGY

Geberit's TurboFlush technology has been specially designed to offer you a toilet that is easy to clean and promises outstanding flush performance. In doing so, our hydraulics experts have optimised the entire water flow from the cistern via the WC to the drain. The energy from the concealed cistern is converted into an exceptional toilet flush. The precise control of the water achieves thorough and complete flushing out of the ceramic without oversplashing, resulting in a flushing performance up to ten times better than required by European standards, less cleaning effort, and a particularly quiet water flow.

The asymmetrical ceramic shape sets the powerful flow rate from the Geberit cistern in a rotating motion. This ensures the full surface of the WC is flushed out thoroughly and quietly.
↓

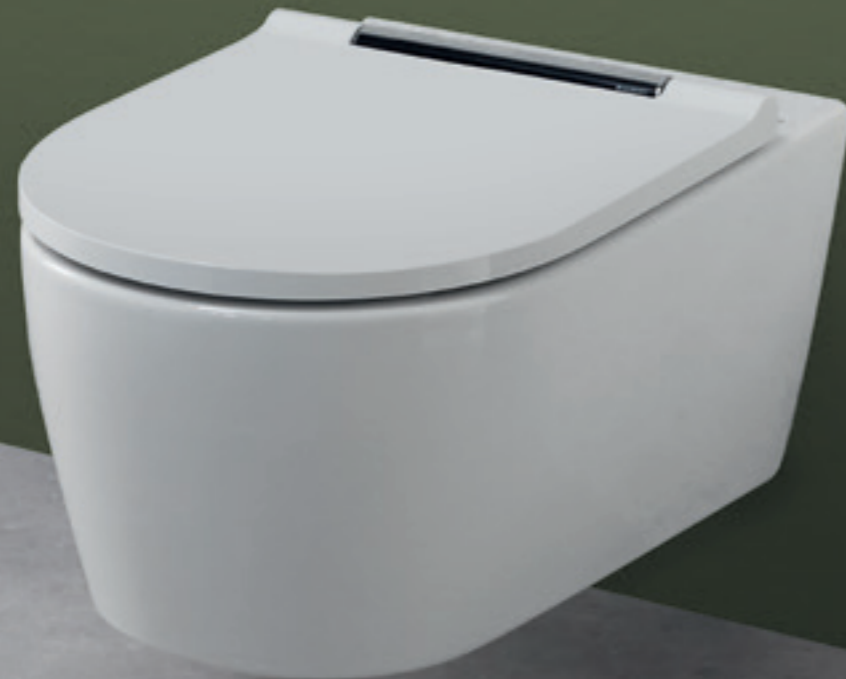

↑
The inner design of the rimless ceramic has no hidden areas where dirt could accumulate. This makes it particularly hygienic and easy to clean.

-  TurboFlush technology
-  Height adjustment
-  Concealed wall fastening
-  WC seat with soft-closing mechanism
-  4-litre flush
-  Floor clearance
-  Quick release
-  Rimless WC

Beneath the elegant exterior of the WC lies a wealth of innovations designed for enhanced comfort. The asymmetrical, entirely rimless inner geometry of the TurboFlush technology ensures an outstanding yet quiet flush performance, while the integrated height adjustment feature allows for custom seat height modifications even after installation.

TurboFlush

KeraTect®

GEBERIT ONE WC WITH TURBOFLUSH TECHNOLOGY

Geberit ONE wall-hung WC set
W 37 cm D 54 cm

The innovative TurboFlush technology sets the water in a spiral motion through a lateral flush opening and the asymmetrical ceramic design.
↓

↑
Integrated height adjustment: the seat height of the Geberit ONE WC can also be adjusted retrospectively without interfering with the wall with an adjustable range of +3/-1 cm.

→
Fold up and detach the seat and cover to make light work of cleaning the WC ceramic appliance.

-  TurboFlush technology
-  Hidden wall fastening
-  WC seat with soft-closing mechanism
-  4-litre flush
-  Floor clearance
-  Quick release
-  Rimless WC

This classic and elegant WC ceramic appliance offers outstandingly thorough and quiet flushing out thanks to the TurboFlush technology.

TurboFlush

KeraTect®

GEBERIT ACANTO WC WITH TURBOFLUSH TECHNOLOGY

Geberit Acanto wall-hung WC set
W 36 cm D 53 cm

The WC seat and lid can be lifted up and removed with ease to prevent hidden dirt marks on the ceramic.
↓

←
The special TurboFlush inner geometry guides the water through the ceramic and into the drain with outstanding precision. This eliminates the need for a second flush and makes cleaning so much easier.

Geberit Rimfree® WC ceramics have no flush rim or splash guard, so there are virtually no hidden corners or edges for dirt and limescale to accumulate. The precise water guide also facilitates full-surface flushing.

RIMLESS WCS WITH RIMFREE® FLUSH TECHNOLOGY

← The smooth, easily accessible inner surfaces of Geberit Rimfree® WC ceramics make light work of cleaning for a clean and hygienic experience.

↑ **CLASSIC WC WITH FLUSH RIM**
Conventional WC ceramic appliances have a flush rim that attracts limescale and dirt and allows unpleasant odours to build up. Keeping this clean calls for a lot more effort.

↑ **RIMLESS WC**
Limescale and dirt have little chance of sticking to the smooth, rimless ceramic. The inner surface is flushed thoroughly, leaving everything clean in no time at all.

Optimum hygiene for age-appropriate or barrier-free bathrooms: Rimless WCs are easy to keep clean.

←
The large projection of Geberit Selnova Comfort wall-hung WCs makes it easier for users to transfer from a wheelchair in compliance with relevant accessibility standards and requirements.

GEBERIT QUICK RELEASE

No toilet is complete without a WC seat ring and a lid: one makes the whole experience more comfortable, while the other contributes to general hygiene and a harmonious overall aesthetic. Quick release models are particularly convenient and easy to clean, as they can be simply detached upwards for cleaning. Discover the additional comfort functions of Geberit WC seats.

QUICK RELEASE
Almost all Geberit WC seats are equipped with a practical quick release function. Simply fold up the seat and cover, lift them off, and replace from above after cleaning. That's all there is to it.

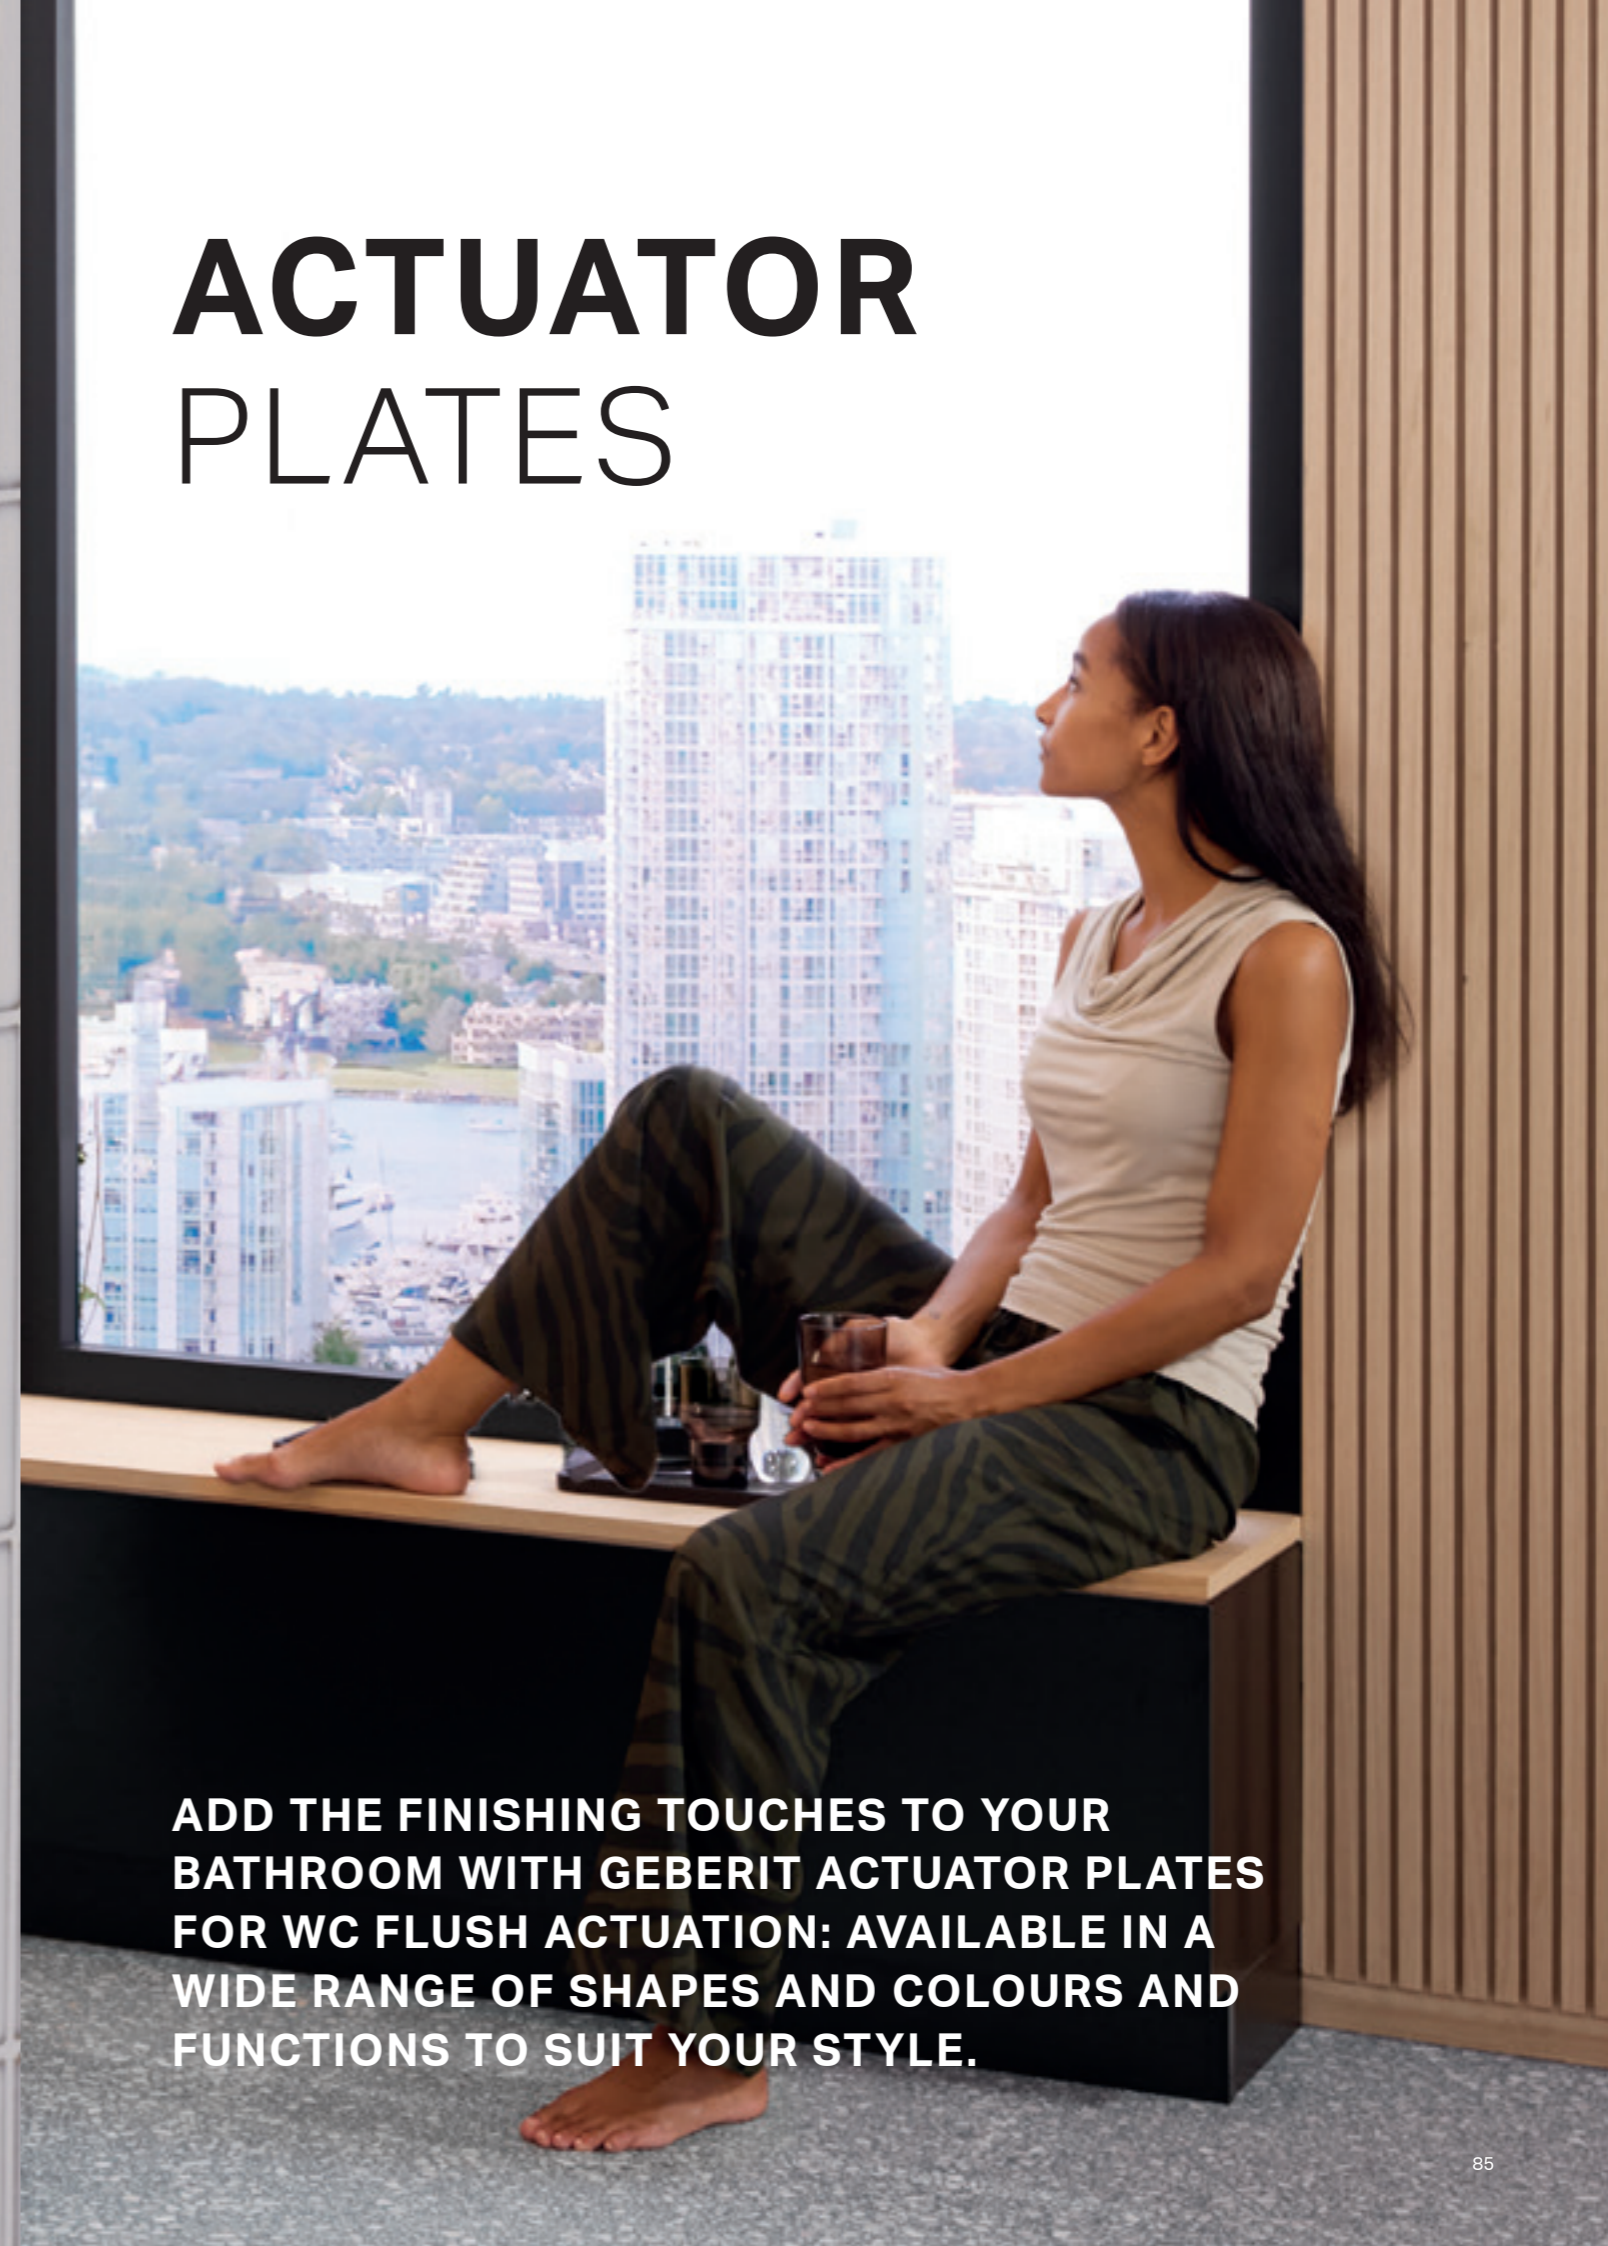

↑
After folding them up, the seat and lid can be removed from above and put back just as easily.

↑
SOFT-CLOSING MECHANISM
A special cushioning system for the seat and lid ensures that they close gently and quietly rather than falling shut.

MORE FLEXIBILITY

Where space is limited, the innovative small-format Geberit Omega flush actuator provides welcome flexibility. The actuator plate can be fitted to Geberit Omega concealed cisterns in two low installation heights, either from above on a half-height prewall or from the front.

Additional colour and material variants available.

All article numbers for these and other products can be found online at www.geberit.za/productcatalog

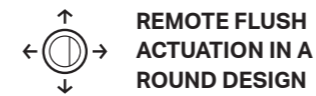

GEBERIT REMOTE FLUSH ACTUATION

Geberit remote flush actuators can be installed within a radius of up to 1.70 metres around the WC. This makes it convenient to actuate the flush even when seated. They can be combined with a normal actuator on the concealed cistern or installed as a stand-alone solution.

←
The remote flush actuator can be optimally positioned so that it is easy to reach even when seated.

GEBERIT DUOFRESH

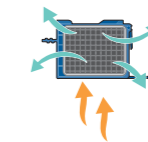

The Geberit DuoFresh odour extraction unit removes unpleasant odours directly from the WC ceramic appliance before they can spread throughout the bathroom. It can be combined with most Geberit actuator plates, making it suitable for virtually any bathroom aesthetic.

Geberit also offers the DuoFresh odour extraction unit with a chute for standard in-cistern blocks.
↓

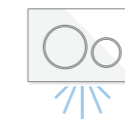

ACCESSIBLE

The ceramic honeycomb filter and drawer for in-cistern blocks are readily accessible behind the actuator plate.

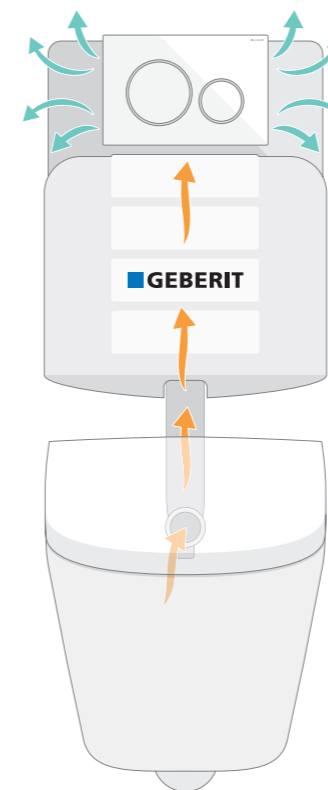

QUIET AND EFFICIENT

The ceramic honeycomb filter cleans the air thoroughly. A quiet fan blows the cleaned air back into the room.

LED ORIENTATION LIGHT

The LED orientation light is provided for additional convenience. This is located below the actuator plate and radiates a discreet, indirect light into the room – a simply perfectly thought-out addition.

Unpleasant odours are removed right where they form.

WASHPLACES

The washplaces is the heart of any bathroom, so be sure to choose a design that enhances your daily self-care routines.

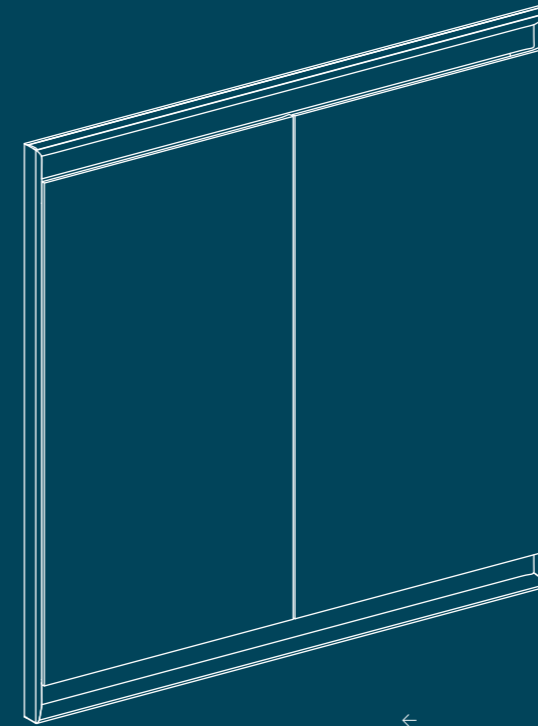

THE WASHPLACES HAVE IT YOUR WAY

Whether you're washing your hands, doing your hair, shaving, brushing your teeth, or cleaning your face, the washplace is the centrepiece of the bathroom. Geberit is your one-stop shop for ceramics, bathroom furniture and accessories, as well as all the technical elements of sanitary technology. This gives you the freedom to put together the washplace of your dreams in terms of design, function and budget.

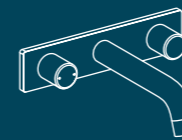

→
ACCESSORIES
Flexible shelf surfaces keep your toiletries right where you need them.

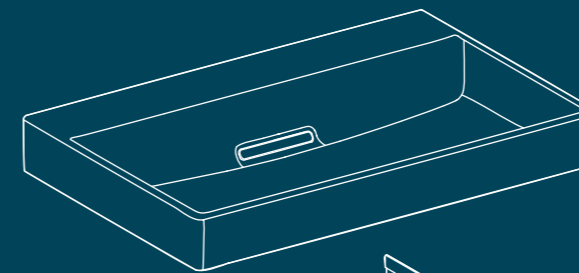

→
MIRRORS AND MIRROR CABINETS
Illuminated mirrors provide optimal lighting to the washplace, while mirror cabinets create additional storage space.

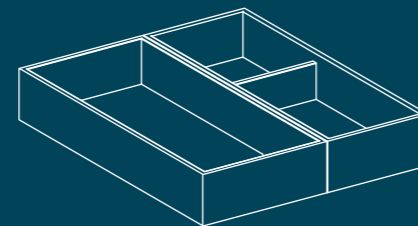

←
WASHBASIN TAPS
Wall-mounted taps provide a continuous ceramic surface that is easy to clean.

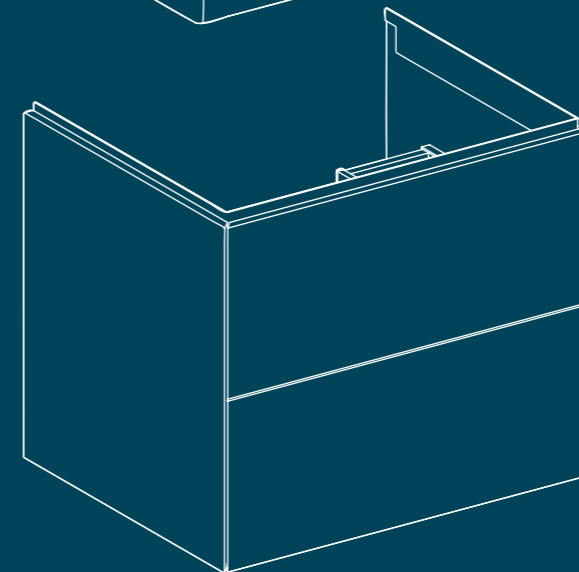

→
WASHBASIN
Choose from lay-on, vanity and classic washbasins with various rim heights. The choice is yours.

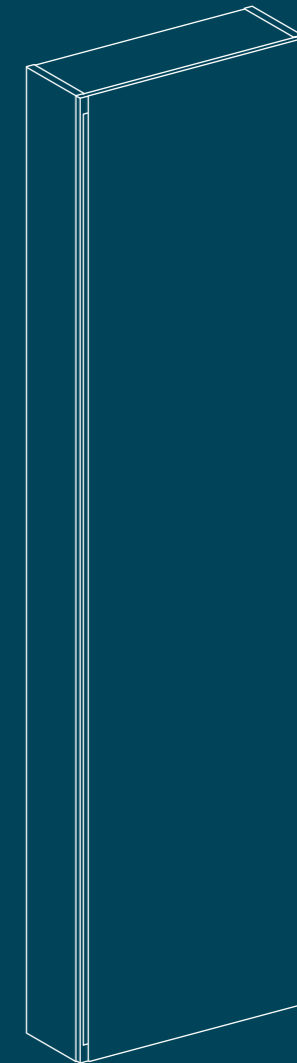

→
ORGANISATION SYSTEMS FOR WASHBASIN CABINETS
Keep a clear overview: additional organising boxes make the washbasin cabinet even more versatile. The internal lighting in the drawers offers even more convenience.

←
WASHBASIN CABINET
Plenty of space for all your day-to-day washbasin items.

←
SIDE CABINET
Generous storage space for bathroom textiles and more.

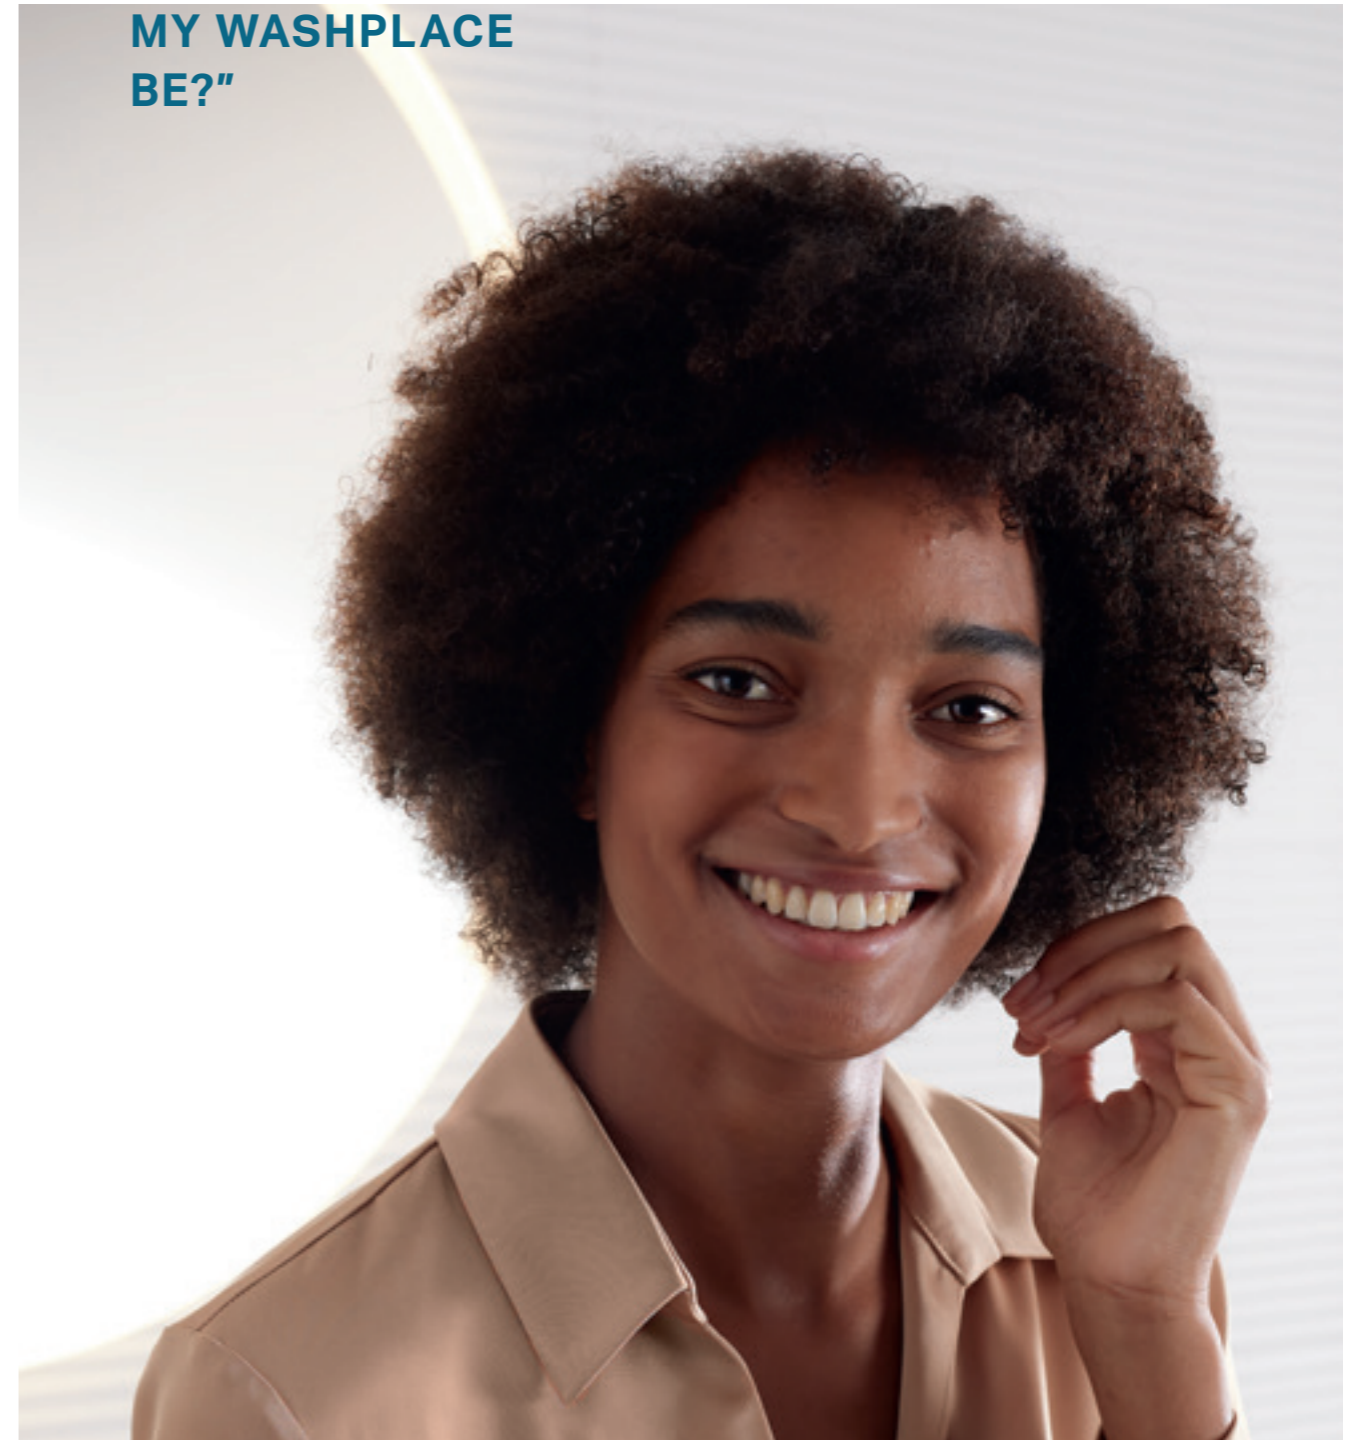

STAND OUT FROM THE
STANDARD.

Anodised aluminium

Matt black (built-in version only)

The brightness and light colour of the mirror cabinet are controlled via a soft-touch button at the bottom of the cabinet or via Bluetooth using the Geberit Home app on a smartphone or tablet PC. The Geberit Home app also offers time presets.

GEBERIT COMFORTLIGHT

PERFECT FOR YOUR DAILY ROUTINE

↓
STANDARD LIGHT

Glare-free light for everyday routines at the washplace.

↑
WORKING LIGHT

Bright and very clear illumination for intensive beauty care.

THE BRIGHTNESS OF THE GEBERIT ONE MIRROR CABINETS CAN BE DIMMED ALONG WITH THE LIGHT COLOUR.

Light has a significant impact on our general well-being. White, bright light is perfect for waking you up, while a muted, warm light has a more relaxing effect. The sanitary products and bathroom furniture featuring Geberit ComfortLight offer a unique feature by adjusting the colour temperature based on the surrounding brightness: the continuously adjustable dimming function automatically makes brighter light cooler and darker light warmer. These lighting conditions are based on natural daylight and are designed to create a cosy ambience. A total of four different, harmoniously coordinated light sources set the perfect scene not only for the washplace, but for the bathroom as a whole. They also create an authentic mirror image without casting distracting shadows.

Gentle orientation light for night-time visits to the bathroom

Continuously dimmable brightness

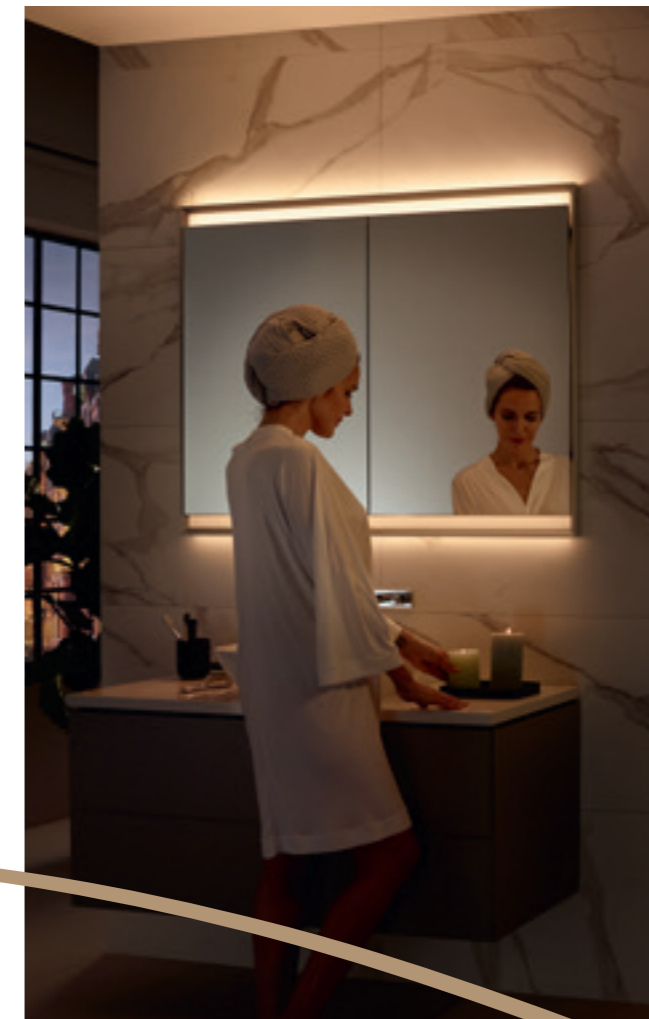

Non-dazzling light

Height-adjustable shelves

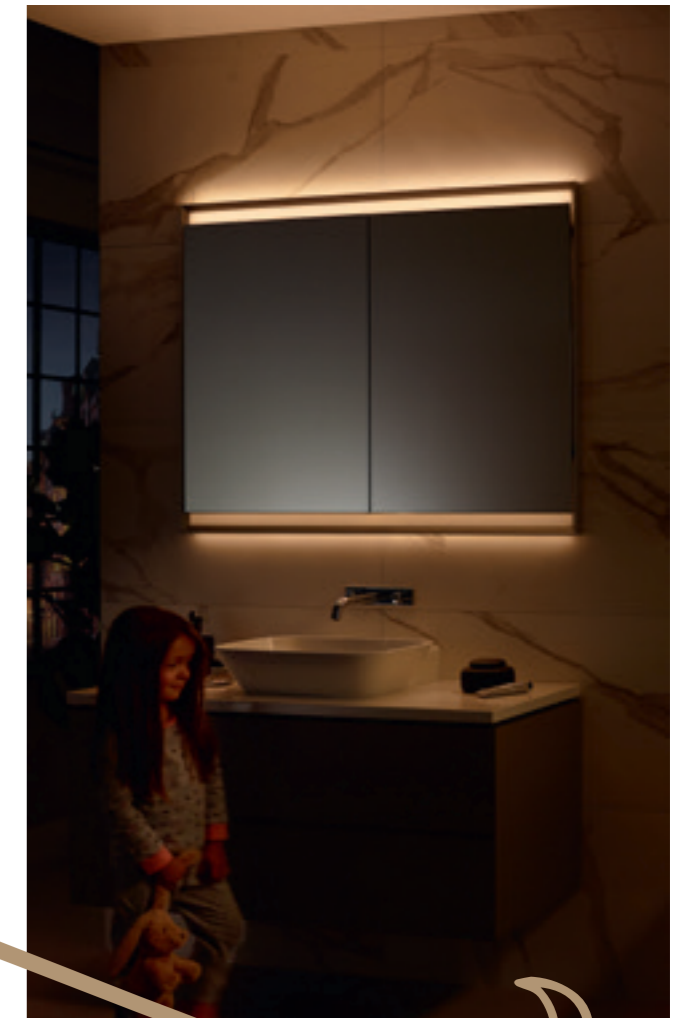

↑
ORIENTATION LIGHT

A soft light that shows the way to the washplace at night and makes it easier to fall back asleep.

↑
INDIRECT LIGHTING

Discreet, warm lighting for relaxing hours spent in the bathroom.

SHOWERS AND BATHTUBS

Showers and bathtubs with clever functions and stylish designs enhance the overall comfort and feel-good factor of your bathroom. Treat yourself to a refreshing boost or a moment of calm with our indulgent water experiences.

SHOWERS

WITH AN EXTENSIVE RANGE OF DRAINS AND SHOWER SURFACES TO CHOOSE FROM, GEBERIT OFFERS YOU THE PERFECT SHOWER AREA SOLUTIONS TO SUIT YOUR BATHROOM AND YOUR BUDGET.

Classic in brushed stainless steel or contemporary in black chrome

Floor-even access for fully tiled shower areas

No hidden gutters to minimise dirt and bacteria deposits. The removable comb insert makes the drain easy to keep clean

With its minimalist, contemporary design and a width of just 3 cm, the Geberit CleanLine50 shower channel is the perfect complement to the stylish Geberit CleanLine family. Its integrated slope and new triangular contour in the channel cross-section ensure rapid water drainage.

reddot winner 2023

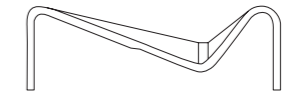

Awarded to the Geberit CleanLine50

GEBERIT CLEANLINE50 AWARD-WINNING SHOWER CHANNEL

Just like the other shower channels in this bathroom series, the Geberit CleanLine50 provides an innovative and easy-to-clean water guide to the central drain. The water is not concealed, but channelled openly via a collector profile to the drain in the centre. This means that there are no concealed areas and there is nowhere for dirt or unpleasant odours to accumulate. Simply wipe the profile down and everything is clean.

↑ The comb insert minimises blockages and is easy to remove and clean.

↑ Triangular, solid channel profile for better water drainage.

↑ Can be customised to the width of the shower area and is also suitable for large tile formats.

↑ Narrow profile width of 30 mm.

SIZES

↑
Geberit CleanLine60 for thin flooring.

↑
The comb insert minimises blockages and is easy to remove and clean.

Harmonious room design

Secure footing with top-tier class C slip resistance

Silky-smooth surface with a pleasantly warm feel

Simple cleaning and care

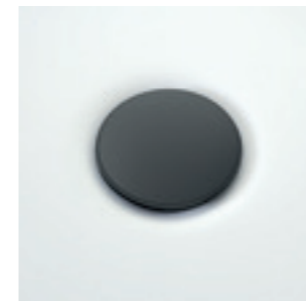

Surface-even or lay-on installation possible

GEBERIT OLONA SHOWER TRAY

Impressively elegant, the Geberit Olona shower tray showcases a matt white finish and a stylish designer drain cover. The tangible strength of the material, made from resin stone and finished with gelcoat, offers a reassuringly solid underfoot experience. The Olona shower tray comes factory equipped with an attached sealing fleece.

← Subtle aesthetic touch: the slimline chrome ring that surrounds the white drain cover on the shower surface.

← Strikingly modern: the drain cover is available in various designs and colours.

		90 x 100		
				75 x 90

Sizes in cm

-  Continuous tiling on the floor
-  Floor-even access for completely tiled shower areas
-  No interruption of the floor surface caused by the drain

GEBERIT WALL DRAIN

The Geberit wall drain moves the drainage system for floor-even showers from the floor to the wall, which not only looks great, but also makes it easier to install a floor-even shower.

Discreet and easy to wipe clean.
↓

↑
The optionally installable collector profile directly in front of the wall supports the slope and collects dirt and deposits so that they can be readily washed away.

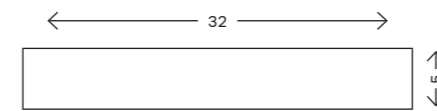

↑
The cover of the wall drain can also be tiled to match your bathroom design.

Both the drinking water and waste water installations are behind the wall, and the floor can be tiled throughout without being interrupted by visible drains. This also makes it possible to install continuous underfloor heating.

COLOURS

-  White alpine
-  Matt black
-  Bright chrome-plated
-  Brushed stainless steel
-  Polished stainless steel
-  Profile for flush wall tiling

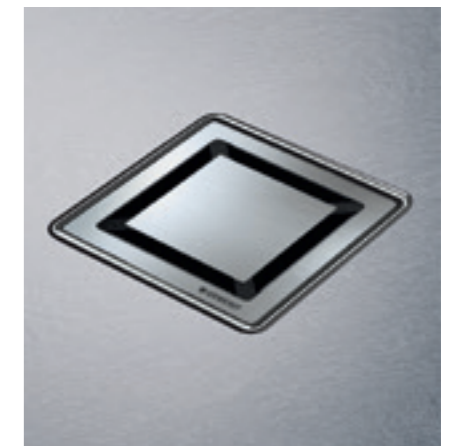

Sizes in cm

GEBERIT SHOWER FLOOR DRAIN

The Geberit shower floor drain is the classic solution for draining floor-even showers. It offers an exceptional discharge rate with a flat trap structure and is easy to position thanks to its compact design with a grating area of just 8 x 8 cm.

The design cover of the shower floor drain is available in round and square versions and can be screwed on.

A comb insert serves as a hair trap to prevent blockages. The cover is available in different design variants with a round or square inlet and can be screwed on for public sanitary areas.

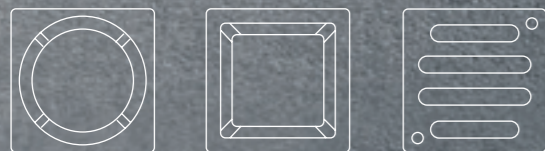

↑
The removable, easy-to-clean comb insert prevents blockages.

 Various design covers

 Threshold-free access for floor-even shower areas

 Simple cleaning thanks to integrated comb insert

ALL COVER TYPES

Walk-in shower panel without bulky aluminium profiles

By using the prewall, the niche storage box creates additional storage space without restricting freedom of movement

No water or dirt residue in the niche storage box, as the water is able to drain freely from the shelf surface

ACCESSORIES

NICHE STORAGE BOX AND WALK-IN

The Geberit niche storage box provides the perfect place to store shampoo, shower gel and more right there in the shower without restricting freedom of movement. What's more, the walk-in shower panel is attached without visible profiles for a more elegant aesthetic that facilitates cleaning with a glass wiper.

The tile-bearing niche storage box fits perfectly into the wall design.

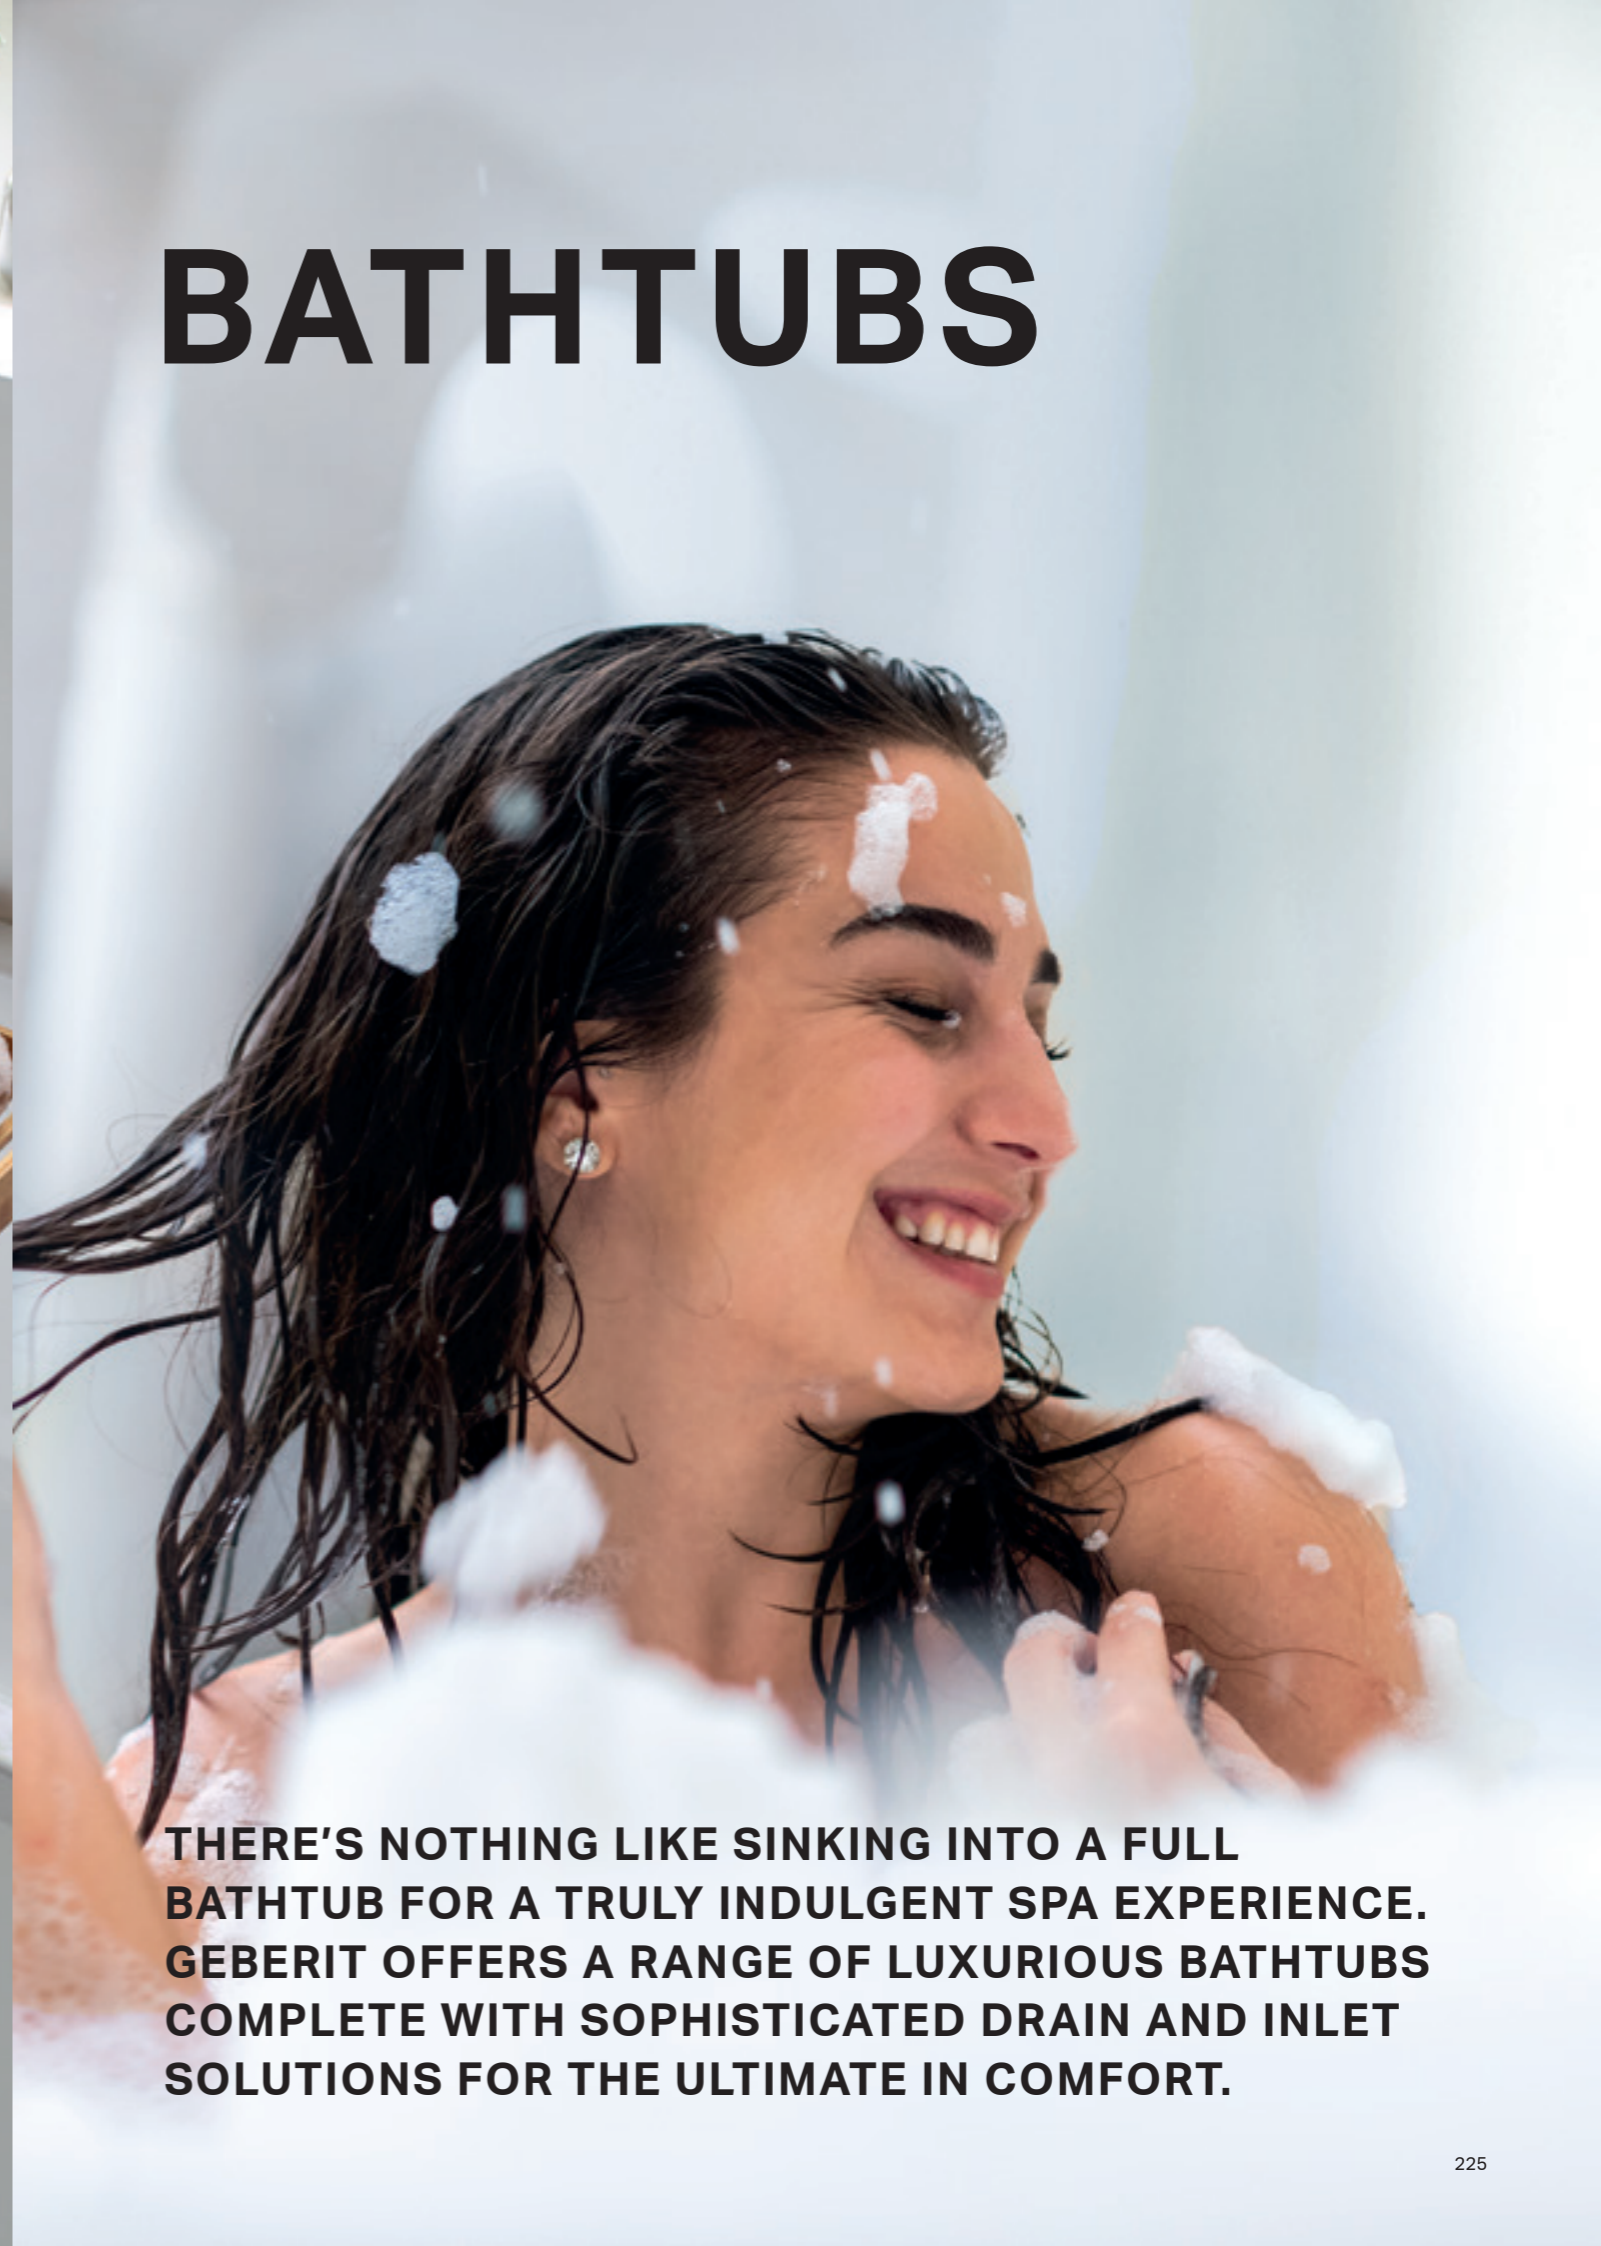

The niche storage box is designed so that water can run off easily and dirt cannot accumulate. It is optionally available with a mirrored door.

The Geberit ONE walk-in shower panel is anchored in the prewall without visible fittings and is therefore particularly easy to clean.

BATHTUBS

THERE'S NOTHING LIKE SINKING INTO A FULL BATHTUB FOR A TRULY INDULGENT SPA EXPERIENCE. GEBERIT OFFERS A RANGE OF LUXURIOUS BATHTUBS COMPLETE WITH SOPHISTICATED DRAIN AND INLET SOLUTIONS FOR THE ULTIMATE IN COMFORT.

Warm surface

Colour to match the ceramic

Durable, resistant material

Easy to clean

Low-maintenance – minor scratches can be simply buffed away

Low product weight

Sound and thermal insulation

GEBERIT SOANA BATHTUBS

With their soft organic design, the Geberit Soana bathtubs make for a truly relaxing bathroom experience. The smooth surface not only helps keep the water warmer for longer, it also enhances the feeling of well-being.

Rectangular bathtub with slim rim
W 75 cm L 170 cm

Rectangular bathtub with slim rim, Duo
W 80 cm L 180 cm
W 90 cm L 190 cm

The bathtub is available with the waste outlet either in the middle or at the narrow end. The slim design of the Geberit bathtub drain with push actuation PushControl perfectly complements the exceptional comfort of the bathtub.

The slim surround of Geberit Soana blends seamlessly into built-in solutions.

BATHROOM SERIES

For unique bathrooms with character: Geberit bathroom series create the perfect living environments to suit your personal requirements and preferences. Enjoy design freedom like no other and allow your own, distinctive style to truly shine.

NICHE STORAGE BOX

The niche storage box with shelves creates more space and freedom of movement in the shower.

MIRROR CABINET

Geberit ONE mirror cabinets with ComfortLight are available in a wide range of models.

ACTUATOR PLATE

Geberit Sigma50, black.

WASHBASIN

Geberit ONE washbasins come in many variations, including square lay-on washbasins and those with a white ceramic surface.

BATHROOM FURNITURE

The perfectly coordinated components can be combined in many ways to create a sense of functional and aesthetic unity.

SHOWER

The Geberit wall drain is perfect for creating a shower floor design with a seamless aesthetic.

WC

Geberit ONE WCs are available in classic white high-gloss or in the popular matt white finish.

GEBERIT ONE

FUNCTIONAL DESIGN FOR BETTER QUALITY OF LIFE

The Geberit ONE bathroom series combines sanitary technology expertise with versatile design skills to offer a pioneering and comprehensive solution for the entire bathroom. Geberit ONE shines with a whole host of both obvious and hidden advantages, all cleverly combined within the system. These make for more cleanliness, more space and more flexibility in the bathroom.

1 Geberit ONE mirror cabinets with ComfortLight set the mood in the room and light it perfectly at any time of day. **2** Geberit ONE WCs are available in classic white high-gloss or in the popular matt white finish. **3** Geberit ONE vanity basin with classic drain and generous shelf surface. **4** The horizontal Geberit CleanDrain washbasin drain features a comb insert and is easy to remove and clean. **5** The streamlined drainage system means no trap cut-out is required in the top drawer. This creates significantly more storage space. The drawer inserts and lateral light strips offer maximum convenience.

the KeraTect[®] finish.

WASHBASIN CABINET
Geberit Xeno² washbasin cabinets
in a minimalist design.

GEBERIT XENO²

CONTRASTING DESIGNS, HARMONIOUS COMBINATIONS

1

The Geberit Xeno² design series is synonymous with architectural design minimalism. Clean, geometric lines on the outside – soft, natural shapes on the inside. This combination yields surprising results that captivate the eye and enhance the user experience. Geberit Xeno² boasts a perfectly coordinated product range of intelligent, well thought-through elements created in an identical design language.

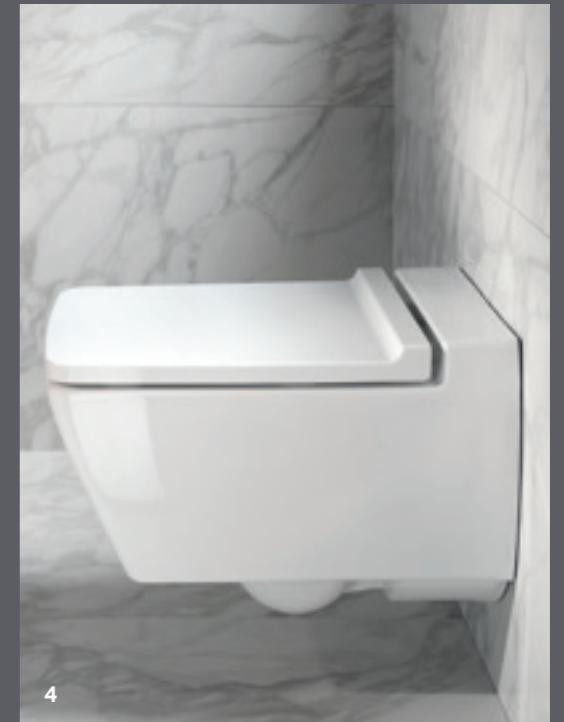

2

1 Clean lines: slim geometric washbasins, handleless furniture fronts. 2 Smooth push-to-open mechanism for easy opening and closing of the drawers. 3 The flowing, curved form of the basin appears in exciting contrast to the clearly geometric outer contour of the Geberit Xeno washbasins. 4 The rimless Geberit Rimfree[®] WC features an unmistakably flat integrated WC seat with a soft-closing mechanism. 5 High-end furnishing concepts can be achieved in even the tightest of spaces. 6 Complementary illuminated mirrors with LED lighting align seamlessly with the sleek geometry of the Geberit Xeno series.

3

4

5

GEBERIT SELNOVA COMFORT

FOR BATHROOM PLANNING THAT SPANS GENERATIONS

The Geberit Selnova Comfort solutions enable older people and those with reduced mobility to retain their independence in the bathroom without compromising on the quality of fittings. The products implement important functionalities in an appealing design. It is based on Geberit's many years of experience in the development and manufacture of solutions for bathrooms that span generations. These solutions include the extremely flat washbasin offering ample legroom when a wheelchair is rolled underneath or WCs with a wide projection of 70 cm to facilitate easy movement from the wheelchair and a WC seat secured against slipping.

1 WC with extended projection for wheelchair access. **2** Rimfree WC without flushing rim prevents germs from settling permanently. **3** A washbasin that is wheelchair accessible makes personal washing and care a breeze – even when seated. **4** Stainless steel hinge and special shape of the buffers for high stability of the toilet seat. **5** A raised zone in the inner washbasin offers a storage area with easy reach even when the washbasin is filled with water.

CONTENTS

NEW STRUCTURE, GREATER VERSATILITY

We have completely restructured the Geberit Bathroom Magazine to make it even easier for you to plan your dream bathroom. You will now find all articles sorted according to the three bathroom categories of WC, washbasin area, and shower/bathtub. With the new Mix & Match system from Geberit, you can combine ceramics and bathroom furniture across different series for even more design freedom.

WC CATEGORY

Perfectly coordinated WC flush technology, ceramics and actuator plates. Always an optimal balance of design and function to suit your needs.

WASHBASIN AREA CATEGORY

Various combinations of washbasins, furniture, illuminated mirrors, mirror cabinets and accessories offer you unparalleled freedom when putting together a washbasin area to suit your lifestyle.

SHOWERS AND BATHTUBS CATEGORY

Enjoy a shower in the morning or a relaxing bath in the evening in the ambience of your choice. Find the perfect solution that meets your requirements in terms of comfort, convenience and ease of cleaning.
